SUMMARY: Senior Front-End Engineer with commercial experience since 2020, specializing in scalable, high-performance web and mobile applications. Expert in React, Next.js, React Native, and TypeScript, with experience in iGaming, AI, and FinTech. Proven team lead delivering business-critical solutions with a focus on performance, accessibility, and maintainable code.

PROFESSIONAL EXPERIENCE

iFuture (Remote) | March 2024 – Present
Role: Front-End Developer & Team Lead
Project: Marathonbet (High-load iGaming Platform)

• **Led a cross-functional team** of 7 engineers building and scaling a high-traffic iGaming platform, maintaining **99.9% uptime** and increasing feature delivery speed by **25%**.
• **Architected scalable applications** using React Native and Remix, achieving **70% code reuse** across platforms and cutting development time for new features by **40%**.
• **Optimized application performance**, improving Core Web Vitals by **35%** and reducing bundle sizes by **30%** through advanced code-splitting and lazy loading.
• **Implemented WebSockets** for real-time odds streaming, reducing latency by **150ms** and supporting **10k+ concurrent users** without performance degradation.
• **Enhanced code quality** by mentoring developers and enforcing testing standards, resulting in a **20% reduction** in production bugs and **30% faster** onboarding cycles.

……

EPAM Systems (Hybrid) | Apr 2021 – March 2024
Role: Front-End Developer
Projects: Scrivas (AI Medical), Proffer (AI Real Estate)

Scrivas (AI Medical Project):
• **Architected a scalable front-end** using React and TypeScript, improving development velocity by **25%** through a modular component library.
• **Integrated AI/ML endpoints** to visualize datasets, reducing data processing time for healthcare professionals by **40%** via interactive dashboards.
• **Achieved 100% compliance** with HIPAA and WCAG standards, ensuring zero data breaches and expanding user accessibility by **15%**.
• **Optimized state management**, reducing application re-renders by **30%** and improving overall responsiveness by **200ms**.

Proffer (AI Real Estate – Dubai):
• **Developed an SEO-friendly marketplace** using Next.js (SSR/SSG), resulting in a **45% increase** in organic search traffic and faster indexation.
• **Built advanced search and map features**, decreasing user "time-to-result" by **35%** and increasing user engagement by **20%**.
• **Delivered 100% pixel-perfect components** using Styled Components, maintaining design consistency across **50+** unique interface modules.
• **Streamlined CI/CD pipelines**, reducing deployment times by **50%** and achieving **99.9%** production reliability.

………

Cyber Tech (On-site) | Jan 2020 – Apr 2021
Role: Front-End Developer
Projects: E-commerce & Business Automation

• **Developed high-converting front-end solutions** using React and TypeScript, integrating secure payment gateways and dynamic catalogs that increased checkout conversion by **20%**.
• **Designed comprehensive Admin Panels** for inventory and order management, reducing internal processing time by **35%** through optimized UX.
• **Engineered automation tools** that eliminated **80% of manual data entry**, doubling overall workflow efficiency for client operations.
• **Migrated legacy codebases** to modern React architectures, cutting maintenance costs by **30%** and accelerating the shipping of new features by **40%**.

SKILLS

JavaScript | TypeScript | React | Next.js | React Native | Redux Toolkit | Zustand | React Query | GraphQL | REST APIs | WebSockets | Tailwind | Styled-components | MUI | Jest | React Testing Library | Storybook | Webpack | Vite | Git | CI/CD | Micro-frontends | Monorepo | Performance Optimization | Team Leadership | Server Components | Module Federation | PWA.

EDUCATION

National Polytechnic University of Armenia *Bachelor's Degree* **|** Sep 2019 – Jun 2024
National Polytechnic University of Armenia *College Diploma* **|** 2014 – 2018

LANGUAGES

Armenian (Native) | Russian (C1) | English (B2)
